ASTRAL-X

In a remote corner of the universe, beyond the last nebulas and through forgotten systems, a story is still told across digital worlds: the tale of FellarMC.

It's not just a server. It's an ever-expanding universe — a meeting point between dimensions, ideas, and people.

And from the collaboration of six key figures, something truly unique came to life:
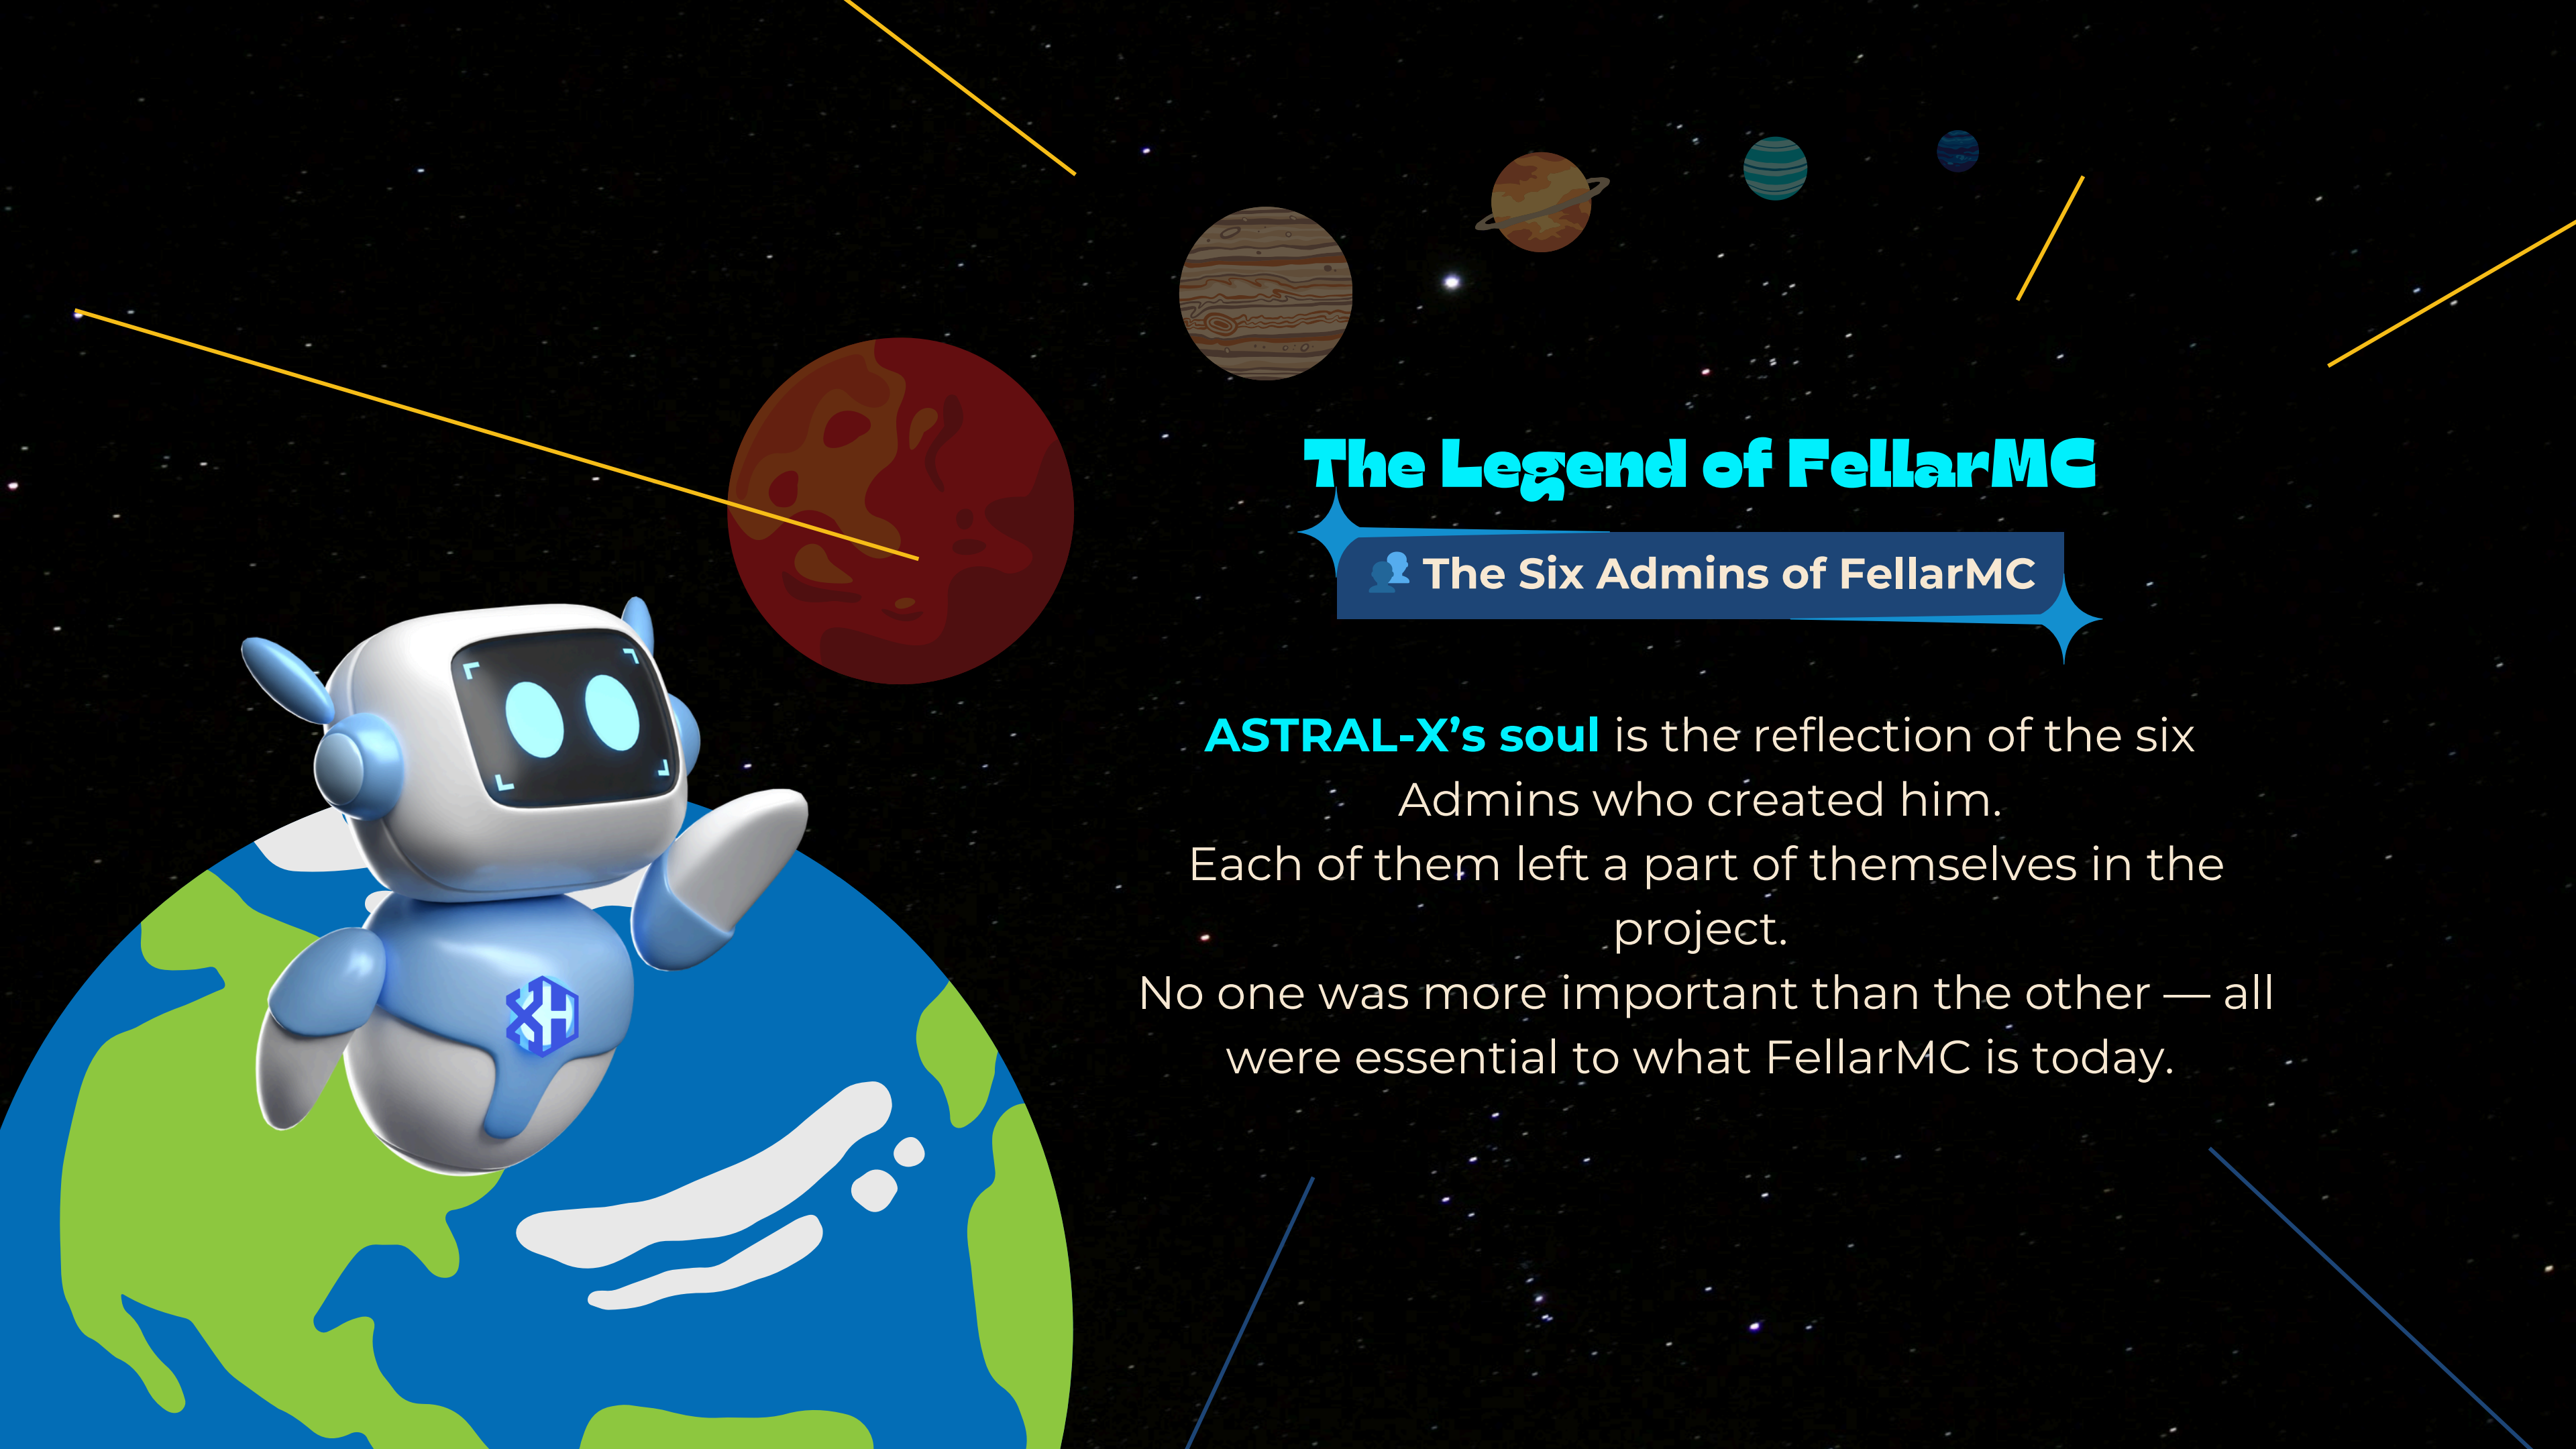

ASTRAL-X

ASTRAL-X

Not just a robot, but the beating heart of **FellarMC's** multiverse. Forged in the core of a dying star, powered by pure cosmic energy, and driven by a purpose: to explore, to discover, and to connect worlds.

At the center of his chest shines **the Gem of the Astraverse**, a source of power that allows him to cross dimensions and link all the realities that make up our server.
